INFORMATION AND CHRONICLE

Academician Aleksandr Nikolayevich Terenin (On His 70th Birthday)	244	44	5
Balakov, V.V., V.D. Volosov, Ye.V. Nilov and A.A. Shesterikova: On the Measurement of the Energy of Light Pulses (Short Communication) . .	464	58	9
Foreign Patents	149	50	3
Foreign Patents	201	52	4
Georgiy Georgiyevich Slyusarev (On His 70th Birthday)	462	56	9
Kharapetyan, G.O., and V.V. Kuprevich: Variable Spectrum, High Reso- lution Cathodoluminescent Glass Screens	353	58	7
New Books	52	51	1
New Books	151	52	3
New Industrial Standard and Instruction Manuals	297	47	6
New Patents	50	50	1
New Soviet Patents (From Bulletin Izobretenii i Tovarnykh Znakov 8, April 1965)	296	46	6
New Specifications, Branch Standards and Guide Notes	51	50	1
New Standards	525	59	10
New Standards and Guides Manuals	354	59	7
New Standards, Specifications and Guides	466	59	9
New Standards, Specifications and Material Guides	405	51	8
The Production and Export of Cameras by Japan and West Germany	404	50	8
Shugayeva, A.I.: Technological Conference of Enterprises of the Optical-Instrument Industry	524	59	10
Soviet Patents	247	48	5
Vanyukov, M.P., V.A. Venchikov, V.I. Isayenko and V.A. Serebryakov: A 6-Gigawatt Neodymium Glass Laser	651	65	12
Vanyukov, M.P., V.A. Venchikov, V.Ya. Zhulay, V.I. Isayenko and V.V. Lyubimov: Two-Channel Single-Pulse Laser with a 180 Joule Output (Brief Communications)	295	46	6
Vorob'yev, Yu.V., and A.A. Vyazigin: Chromatic Aberration and Axial Astigmatism in High Resolution Electron Microscopes (Brief Communications)	200	51	4

INSTRUMENTS

Adrianova, I.I., V.R. Zaslavskaya and Yu.V. Popov: A Wideband Inter- ference Light Modulator with Ferroelectric Ceramic Mirror	377	22	8
Aleksandrov, A.N., I.N. Yerakhina and M.I. Semenkina: Interference Filter Analyzer for Determination of Water Content by Near Infra- red Absorption	267	19	6
Arkhipov, V.M., G.A. Iyevlev, B.A. Kiselev and S.P. Rozov: Inter- ference Spectrometer with Selective Amplitude Modulation (SISAM)	545	21	11
Bayunov, V.I., I.V. Podmoshenskiy and L.V. Popov: Disk-Type Spec- trochronograph SP-113M	273	25	6
Cherniy, I.: Rapid Camera Loading with Standard 35-mm Motion Picture Film	127	29	3
Cherniy, I.: Single-Lens Reflex 35-mm Cameras with Diaphragm Shutters	65	15	2
Dmitriyevskiy, O.D., I.B. Peisakhson, Yu.D. Pushkin and V.D. Khudonov: The High-Speed SP-97 Photoelectric Spectrometer	219	17	5
Gerasimova, N.G., D.A. Gusev and G.P. Startsev: Stray Light in a VM-70 Curved Grating Vacuum Monochromator between 35 and 600 nm	124	25	3
Goldin, K.R., and A.P. Avdonin: Semiautomatic Mechanisms for Con- trolling Exposure in Nonprofessional Cameras	335	39	7
Gorokhovskiy, Yu.N., and V.V. Levina: Errors of Resolvometry	489	24	10

	English Page	Russian Page	Russian Issue No.
Gorokhovskiy, Yu. N., and V. V. Levina: The Projection Resolvometer and Its Application	432	26	9
Inyushin, A. I., and L. A. Shiffers: Interferometric Quality Control of Concave Parabolic Surfaces	329	33	7
Inyushin, A. I., and L. A. Shiffers: An Interferometric Technique for Quality Control of Convex Parabolic Surfaces	374	19	8
Ivanov, A. V., S. P. Rozov and N. T. Firsov: An X-Ray Vacuum Spectrometer for the 1.5-45 nm Spectral Region	70	21	2
Kiselev, B. A., and Yu. D. Pushkin: A Fourier Spectrometer	388	33	8
Kontiyevskiy, Yu. P., and V. A. Feoktistov: Quality Control of a Flat Surface by Image Matching in a Two-Beam Interferometer	179	29	4
Kozlov, N. A., A. A. Mak and B. M. Sedov: Solid-State, Sun-Pumped Lasers	549	25	11
Kozyrev, V. P., and V. A. Korotchenko: A Photoelectric Refractometer	496	31	10
Moskalev, V. A., I. M. Nagibina and N. A. Polushkina: Multi-Ray Interference Bands in a Series Interferometer	616	30	12
Naishui, A. S., and Ye. M. Neplokhov: Automatic Guiding System for Azimuthal Telescopes	426	20	9
New Books	38	37	1
New Books	222	21	5
New Books	276	28	6
Omel'chenko, A. I., and N. V. Malysheva: Circular Ray Path Focometer	494	29	10
Paplyants, K. A., (deceased): An Autocollimating Technique with Increased Angular Range	620	34	12
Puryayev, D. T., L. M. Krivoviyaz, P. A. Kameneva, S. V. Nikitin and V. M. Butenko: Interferometer for the Quality Control of Aspherical Second-Order Surfaces of Revolution	173	23	4
Raguzin, R. M.: Characteristics of Arched Microscope Stands	31	30	1
Raguzin, R. M.: Microscope Controls and Operational Convenience	624	37	12
Skvortsov, G. Ye., and I. M. Dolinskiy: Device for Setting Parfocality of Microobjectives	423	17	9
Skvortsov, G. Ye., V. A. Panov, A. D. Zabezhinskiy and I. M. Dolinskiy: The PMT-4 Remote Control Microhardness Gage	339	43	7
Tel'tevskiy, I. A., and I. Cherniy: Hand-Held Cameras with Telephoto Lens	499	34	10
Toporets, A. S.: Goniophotometer	383	28	8
Zaytsev, G. A., and I. A. Khrebtov: Electronic Stabilization of Low Temperatures	35	34	1
Zolotarev, V. M., V. A. Karinskiy and Yu. D. Pushkin: Adapter for Obtaining Frustrated Total Internal Reflection	380	24	8

OPTICAL DESIGN

Andreyev, I. P., and S. B. Gribanova: New Apochromatic Plano-Objectives	27	26	1
Babintsev, V. F.: Formulation of Ray Tracing Equation Applicable to Computer Handling	215	14	5
Galpern, D. Yu.: Evaluation of the Modulation Transfer Function by Means of Rayleigh's Criterion for Aberration Tolerance	318	22	7
Klepikova, L. S.: Effect of Wave Aberration on the Optical Modulation Transfer Function	487	22	10
Krupp, D. M.: Frequency-Contrast Characteristic of an Optical Fiber Assembly	22	21	1
Matveyev, V. A.: Deflection of a Ray by a Plane-Parallel Glass Plate with Nonuniform Temperature Distribution	543	19	11
Pakhomov, N. I.: n-Component Variable Magnification Systems with Linear Relationships Between Component	323	27	7
Peysakhson, I. V., and I. N. Tarnakin: Ray Tracing in an Arbitrary Optical System	539	15	11
Peysakhson, I. V., and N. G. Romanov: Application of Plane Diffraction Gratings with Nonparallel Concentric Beams	369	14	8

English Page	Russian Page	Russian Issue No.
-----------------	-----------------	-------------------------

Puryayev, D. T.: Design of Compensating Lenses for Interferometric Control of Aspherical Surfaces of Revolution	262	14	6
Tseno, N. V.: Computerized Design of Complex Optical Systems	416	10	9
Vasilevsky, O. N.: Design of "Planar" Objectives	168	18	4

OPTICAL GLASS

Buzhinskiy, I. M., and N. I. Yemel'yanova: On the Structural Changes of Color Centers in Glasses Doped with Ce, S and Se Compounds During Heat Treatment	74	25	2
Chuvayeva, T. I., and Ye. V. Podushko: Dependence of Certain Properties of Glass-Ceramics on the Catalyst Content	277	29	6
Galant, Ye. I., and I. V. Koricheva: On the Compatibility of Glasses in Fiber Optics	554	30	11
Galant, Ye. I., N. I. Vlasova and N. A. Vyaz'mina: The Effect of Coloration Impurities on the Light Absorption of Lanthanum Glass	631	44	12
Galant, Ye. I., T. M. Makarova, V. S. Molchanov and V. A. Tsekhomskiy: Properties of Tin-Containing Silicate Glasses	182	32	4
Karapetyan, G. O., and S. G. Lunter: Investigation of the Surface Luminescence of Glasses Activated by Monovalent Copper	223	22	5
Kolomiys, B. T., and B. V. Pavlov: Optical Absorption of As_2Se_3 of Various Initial Purity	343	48	7
Makarova, T. M.: Effect of the Composition of Two-Alkali Glasses on Their Susceptibility to Hygroscopic Clouding	502	37	10
Motovilov, O. A., and V. N. Rozhdestvenskiy: On the Antireflection Coating of Small Optical Elements	85	4	2
New Books	82	33	2
New Books	87	37	2
New Books	184	34	4
New Books	441	35	9
Shchavalev, O. S.: Calculation of the Thermo-Optical Properties of Silicate and Borosilicate Glasses in Terms of Their Chemical Composition Over a Wide Range of Temperatures and Wavelengths	39	38	1
Shchavalev, O. S.: The Temperature Dependence of the Expansion Coefficient and the Refractive Index of Glass	130	31	3
Sherstyuk, A. I.: A Theoretical Study of the Glass Crystallization Process by a Different Thermal Analysis System	77	28	2
Shmatok, L. K.: Immiscibility and Catalytic Crystallization in Borolanum Glasses	438	32	9
Veynberg, T. I., and S. P. Lun'kin: High Temperature Changes in the Spectral Absorption of Glasses Tinted with Transition Metal Ions	393	39	8

PATENT PROBLEMS

Foreign Patents	96	46	2
Mamlofa, I. E.: Sources of Patent Information	43	43	1
Mamlofa, I. E.: Specific Benefit as a Prerequisite for Patentability - Inventions	91	41	2
New Standards and Instructional Materials	99	48	2

RESULTS OF INDUSTRIAL STUDIES

Denisyyuk, G. V., and L. P. Churayev: Photoelectric Devices for Automatic Focusing of Objectives	189	39	4
Dolinskiy, I. M., and G. A. Matveyeva: Bearings with Wire Races	508	43	10
Gorelik, B. D., B. M. Grachev, A. M. Stesel' and O. V. Tochenov: Design, Calculations and Operation of Hydraulically Powered Spindles for Lathes Used for Grinding Lenses	185	35	4

	English Page	Russian Page	Russian Issue No.
Gorelik, B. D., B. M. Grachev, A. M. Stesel' and O. V. Tochenov: Industrial Equipment for Lens Machining	348	53	7
Gorelik, B. D., B. M. Grachev, A. M. Stesel' and O. V. Tochenov: The Technology of Lens Production by Machine	88	38	2
Kogan, T. I.: Vacuum Jigs for Fastening of Optical Blanks	402	47	8
Kuznetsov, K. A.: Technological Tolerances in the Exposure Time of Focal Plane Shutters	145	46	3
Makhlis, A. I.: Nomographic Computation of Exposure Control Mechanisms for Automatic and Semiautomatic Cameras	571	46	11
Medvedev, A. M.: High-Precision Cylindrical Bores in Glass	285	37	6
Medvedev, A. M.: New Mass Production Technique for Making Parts with Precise Angles	242	42	5
New Books	90	40	2
Nikitin, V. A., and F. M. Danilevich: The Precision in Measuring Radii of Spheres by Measuring the Depths of Arcs with a Set of Gage Blocks	512	47	10
Safutin, V. G.: The Accuracy of Lens Centering	446	41	9
Shtandel', S. K., and A. V. Novikov: Mass-Production Machining of Spherical Surfaces of Optical Components on the 1 AL-5 Grinder- Polishers	350	55	7
Voskresenskiy, L. L.: Graphical Design of Iris Diaphragms with Linear Scale	565	41	11

REVIEW

Gerasimova, N. G.: Light Scattered in Vacuum Monochromators	449	44	9
Gradoboyev, V. M.: Cam-Operated Film Transports for 8-mm and 16-mm Movie Projectors	516	52	10
New Books	144	45	3
Novikov, V. M.: The Optical Properties of Various Thin Films in Vacuum Ultraviolet	137	38	3
Petrov, B. I., and V. A. Veydenbakh: Oscillograph Cameras for Polaroid Films	286	38	6
Savost'yanova, M. V.: Photochromic Transformations of Spiropyran Molecules and Their Applications	232	31	5
Shtykan, M. D.: Half-Frame (18 x 24 mm) Cameras	577	53	11
Syrov, A. A.: Multi-Lens One-Step Cameras	648	62	12
Syrov, A. A., and I. Cherniy: Rapid Loading of Photographic Cameras (Current Concepts Reviewed)	582	58	11

TECHNOLOGY

Chernevskaya, E. G.: The Hardness of Mixed Single Crystals of CaF_2 Type	346	51	7
Furman, Sh. A.: Broad-Band Antireflection Coatings	559	35	11
Gilev, I. S., A. V. Makarov and V. A. Tyurev: Fining Optical Glass Blanks by Heat Treatment Under Pressure	442	36	9
Golovanova, M. N.: The Effect of Particle Size Distribution of Abrasive Powder on the Microgeometry of a Ground Glass	396	41	8
Karlin, O. G., and V. G. Kuks: Manufacture of Aspherical Lenses by Means of Resilient Tools	643	57	12
Kuznetsov, A. Ya., L. A. Orlova and S. Ye. Krasikov: The Mechanical Strength of Optical Glasses	134	35	3
Nechay, A. V., and A. V. Folomeyev: Effect of Machining on the Plasticity of Crystals of Rock Salt, Sylite, Lithium Fluoride and Fluorite	637	51	12
Nechay, A. V., and A. V. Folomeyev: Tensile Strength of Certain Crystals As a Function of the Surface Preparation	505	40	10
Rozhdestvenskiy, V. N.: Estimating the Hardness of Optical Coatings	640	54	12

	English Page	Russian Page	Russian Issue No.
Sidaravichus, I., F. A. Levina, G. I. Rybalko, A. M. Sladkov, V. S. Mylnikov, Yu. P. Kudryatsev and L. Yu. Ukhin: Electro- photographic Layers with Photoconductive Acetylene Polymers . . .	228	27	5
Vinogradova, L. M.: A Method for Producing Thin Semiconductor Platelets.	281	33	6

THEORY AND EXPERIMENT

Adrianova, I. I., Yu. V. Popov and V. Ye. Terent'yev: Ruby Laser Modulated by Means of a Diffraction Modulator Utilizing Standing Ultrasonic Waves.	600	13	12
Akimov, I. A.: An Investigation of the Internal Photoeffect in Semiconduc- tors by the Condenser Method.	205	4	5
Alekseyeva, M. I.: A Method for Designing Narrow-Band Light Absorp- tion Filters from Colored Glasses with a Given Spectral Characteristic.	107	8	3
Artamonov, O. M., N. B. Gerasimova and S. A. Komolov: Experimental Study of an Electron-Optical Mirror	603	17	12
Azin, V. A., M. P. Vanyukov, V. I. Isayenko, V. A. Serebryakov and O. A. Shorokhov: A Neodymium Glass Laser with a Continuous Shift in the Emission Band	356	1	8
Baranov, V. K., and G. K. Mel'nikov: Study of the Illumination Charac- teristics of Hollow Focons	408	1	9
Belyakova, G. V., and V. M. Prokop'yev: An Analysis of the Operation of a Radiation Chopper	117	18	3
Bresler, P. I.: The Designing of Optico-Acoustic Gas Analyzers	14	13	1
Denisov, R. N.: Correction of Nonlinear Sampled-Data Tracking Systems by Means of Logic Circuits	531	6	11
Dovger, V. I.: Choice of Sampling Interval in a Multichannel Pulse Detection System with Time-Multiplexed Channels.	56	5	2
Gerasimova, N. G., D. A. Gusev and G. P. Startsev: Excitation of Spectral Lines in the Vacuum Ultraviolet Region in a Hollow Cathode	18	17	1
Goldin, K. R.: Programming of the Automatic Exposure Mechanism in Amateur Photographing Cameras	53	1	2
Golubovskiy, Yu. M.: Characteristics of Amplitude-Measuring Photo- electric Instruments	312	15	7
Golubovskiy, Yu. M.: The Characteristics of Systems Measuring Line Displacement.	477	10	10
Golubovskiy, Yu. M.: Photoelectric Devices in Which the Light Modula- tion Follows Changes in a Controllable Variable	364	8	8
Golubovskiy, Yu. M.: Sensitivity of Photoelectric Autocollimators with Half-Disk Modulators	527	1	11
Gorochovskiy, Yu. N.: Accuracy of the Exposure Time Adjustment in Automatic Cameras	6	6	1
Kremenchugskiy, L. S.: Pyroelectric Detectors.	483	17	10
Kuprevich, V. V.: The Afterglow in Some New Cathodoluminescent Screens	537	13	11
Kuprevich, V. V.: Angular Distribution of Light on Some Cathode Ray Luminescent Screens	482	15	10
Larina, R. M., and L. S. Agroskin: Measurement of Transmission of UV Microscope Objectives	594	6	12
Lyubimov, Yu. V.: Analysis of Scanning Trajectories of Optical Images and Classification of Spectra	589	1	12
Minkov, I. M.: The Effect of Interdiffusion of Glass on the Light Trans- missivity of Fiber Elements.	473	6	10
Mishchenko, Ye. D., and G. P. Startsev: Electrophotometry of Light Fluxes with the Aid of a Photomultiplier Operating as a Photon Counter	114	15	3
New Books	317	21	7

	English Page	Russian Page	Russian Issue No.
Novikov, A. B., and M. A. Penyaz': Selection of Appropriate Parameters for Slit Analyzers of the Field of View	156	6	4
Orlov, I. F.: Some Problems in the Radioluminescence of Inorganic Glasses	303	6	7
Ostrovskaya, M. A.: The Dependence of the Resolving Power of the Eye on Various Combinations of Aberrations	101	1	3
Pankratov, N. A., and V. P. Korotkov: Decreasing the Noise Effects in an Amplifier	60	10	2
Rakovskiy, Yu. N.: Effect of Background Interference on the Threshold Sensitivity of a Pulse-Modulated Photoelectric Indicator	152	1	4
Rogovoy, I. D.: The Absolute Spectral Sensitivity of Type FS-A Commercial Polycrystalline Lead Sulfide Photoresistors	257	9	6
Samofal, N. S.: Optimum Mechanical Stress Relief in Telescope Mirrors Having a Center Opening	609	23	12
Samofal, N. S.: Optimum Strain Relief Systems for Main Telescope Mirrors	250	1	6
Savko, S. S., and G. P. Fayerman: Ultraviolet Absorption Spectra of Polyvinyl Alcohol Films	411	5	9
Savost'yanova, M. V., A. G. Vorob'yev, Yu. N. Polyakov and T. A. Shakhverdov: The Characteristics of the Coloring and Bleaching Processes of the Spiropyran Type of Photochromic Materials in Polymer Films	160	9	4
Savost'yanova, M. V., and K. N. Chikov: Conditions for Recording of Information on a Photochromic Film by the Photoscopic Method	533	8	11
Selezneva, A. M., and A. I. Stozharov: Refractive Indices of Glasses K108, LK6 and TF11 at Liquid Hydrogen Temperature	607	21	12
Stanevich, A. Ye, and N. G. Yaroslavskiy: The Absolute Emissance of the PRK-4 Mercury Lamp in the Far Infrared (50-2000 μ)	203	1	5
Stozharov, A. I., and G. F. Bakhshiyeva: Differential of Refraction Measurements of Glasses on a Gonimeter	309	13	7
Syrov, A. A., and I. Cherniy: Overall Exposure Errors in Soviet Cameras with Automatic Exposure Controls	299	1	7
Taganov, K. I., and L. M. Faynberg: Determination of the Thicknesses of Coatings from the Flash Spectra Produced by Interaction of Laser Radiation with the Coating Material	307	11	7
Vasil'yev, B. I.: Effect of Reorientation of Components on the Phase Difference Measurement Using a Babinet Compensator	468	1	10
Vaysfel'd, N. M., and S. V. Yurkova: An Electron Microscope Investigation of the Structure of Electrically Conducting Oxide Films on Glasses and Other Insulating Materials	110	11	3
Vinokur, S. I.: The Effect of the Axial Motion of a Tubular Cutter on the Shape of the Limiting Surface	359	4	8
Voytovich, G. D., M. S. Davydov, A. I. Ivanov and G. P. Tikhomirov: Optical Properties, Structure and Phase Composition of Lead Sulfide and Selenide Films	597	9	12
Yakhkind, A. K., and B. F. Ioffe: On Extending the Measurement Range of Critical Angle Refractometers by Using High Refractivity Glasses	1	1	1
